**S**aint Mary Magdalen has been a great blessing in our lives. When we pulled our kids out of their other school and brought them here, we were all apprehensive because of the change. But from the moment our kids stepped into their classrooms that May to “come see” and meet their future classmates, it has been an absolute joy and the easiest of moves for the kids.

My oldest at the time was entering eighth grade, probably the roughest year to come to a new school and yet those 20 children were the most welcoming and accepting children I’ve ever come across. My sixth-grade, third-grade and Kindergarten kids were also graciously welcomed by their classes. It was such a smooth transition that our apprehensions just melted away.

I can’t fully express my admiration for the teachers and Mrs. Albert. They’ve all exceeded my expectations and I thank God every day for bringing us to such a wonderful school and parish. This is home.
